DISTINCTIVE LEADERSHIP IN MENTORING:

Our mentoring provision is strategically led by national expert, Haili Hughes, is the UK's only dedicated Principal Lecturer in mentoring. Haili has written a bestselling book on mentoring, aligned to the CCF and ECF and was involved in steering groups when the policies were formulated.

She also delivers the ECF to six groups of trainees and mentors and the NPQ LTD for two providers, so has an excellent understanding of the 'golden thread' of teacher development. This means that all our mentor training complements these programmes. Haili also sits a mentoring steering group at Teach First and was on the expert panel for Chartered College's Chartered Mentor programme.
